FlexiSpace – Attendance and Team Participation

Purpose

This section records the team's attendance, communication and participation during the FlexiSpace project. Attendance includes formal team meetings, collaborative sessions and regular progress check-ins.

1. Attendance Approach

Attendance was tracked throughout the project by recording formal team meetings, collaborative sessions and regular progress check-ins. So these included both in-person and online communication through WhatsApp. The team did not hold formal meetings every week because the project plan, responsibilities and Task 1 requirements had already been discussed and agreed upon early in the project. So once development started, team members were given time to work independently on their assigned responsibilities while keeping in regular contact with the rest of the team to provide progress updates and raise any issues.

2. Team Roles and Responsibilities

Team Member	Role	Main Responsibility
Khensani	Team Leader / Backend & Database	Database, API, authentication, team coordination and documentation
Tino	Business Logic	Booking logic, conflict detection and related backend functionality
Denzel	Business Logic / Admin	RBAC, notifications, audit logs and administration
Khumo	Website Developer	React website and frontend functionality
Riba	Mobile Developer	.NET MAUI mobile application and mobile functionality

3. Team Attendance Record

#	Date	Meeting type	Duration	Members Present	Main Purpose
1	05 May 2026	Meeting with Client [In person]	2 hours	All member present	Get User requirements
2	17 July	Tean planning/week 1 [In person meeting]	Estimate of 3 hours +	All members except Joy Chihava	Reviewed project direction, team responsibilities and development approach
3	20 July	Teams Meeting with Client	30 mins	All members except Joy Chihava	Clarification of User Requirements
4	21 July	In Person meeting	2h 45 mins	All members except Joy Chihava	Creation of the Proposal Presentation
5	23 July	What's App meeting	40minutes	All members except Joy Chihava	Drafting Project plan
6	22 July	In person meeting	2h 30mins		Completed project plan
7	28 July	Teams meeting	1h 7mins	All members except Joy Chihava	Review Database scheme and project structure created by group member
8	August	In Person Meetings; after class and online	Ongoing	All members except Joy Chihava	Discussed User Requirements as there was a specific issue that needed to be addressed with Client but he postponed the meeting

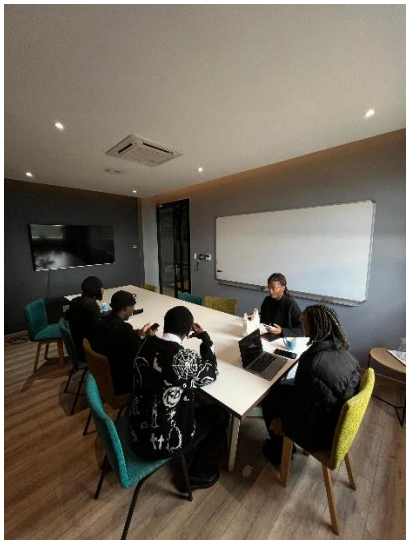

4. August Progress and Communication

August: We did not have as many formal team meetings during August because development had already started and the team had a clear understanding of their responsibilities and the Task 1 requirements. Team members used this period to work on their assigned sections and development tasks. Progress was still monitored through regular check-ins, either in person or through WhatsApp, where members shared updates, asked questions and discussed any issues that needed attention. A formal team meeting was scheduled for 19 August 2026 to review the overall progress and determine the next steps.

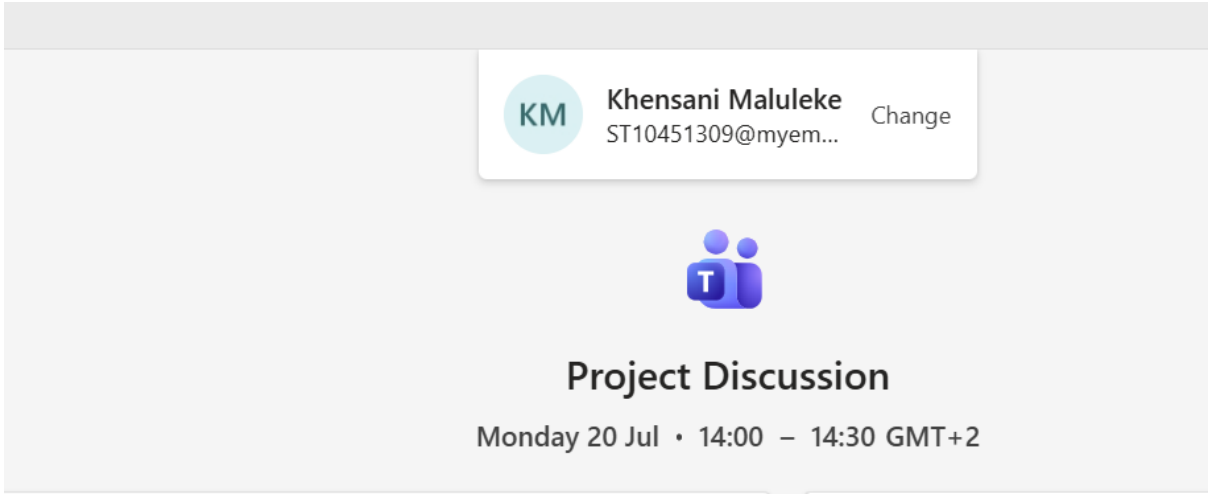

Meeting with client: Happens every 2 weeks to keep client updated and in the loop

Evidence of Meetings

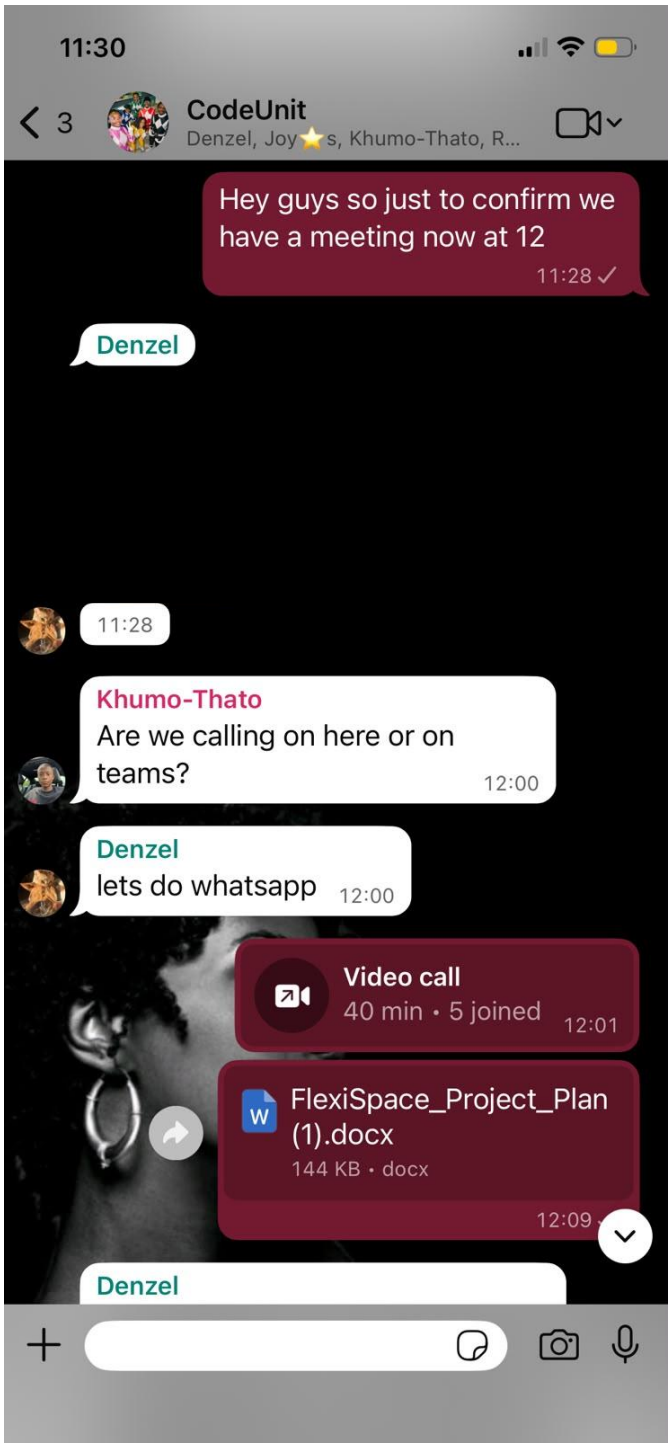

05 May 2026: In Person meeting with Client , no evidence but a group photo taken at the meeting at FlexiSpace

20 July: Client Meeting on Teams:

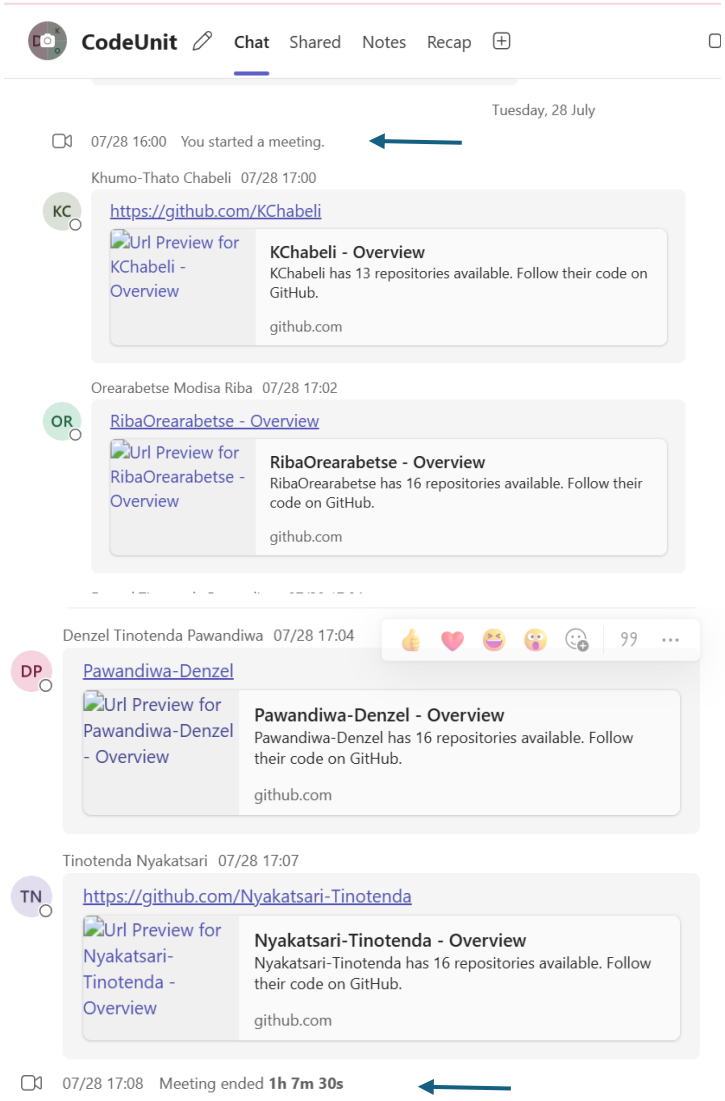

23 July: What's App meeting

What's App Call

Project Plan discussed and modified

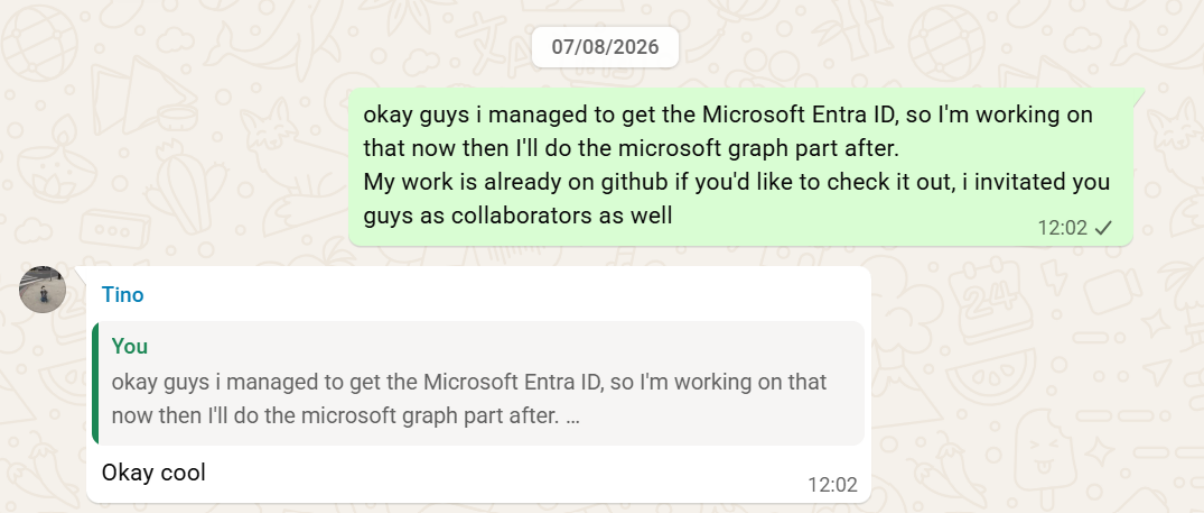

28 July: Teams Meeting, database review and project structure

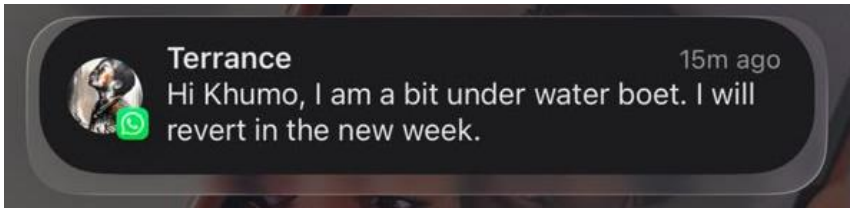

August Check ins

In person check-ins were not recorded as there were short interactions

07 August: Everyone member reviewed the current project on Github

10 August: Client meeting postponed

Client postponed meeting to this current week (17 - 21 August)
